Message from our Vice-President

The cool weather is behind us as we leap forward into spring time. Once again it is time to make sure our bikes are ready for the 2013 riding season. We have some great rides scheduled and some great routes planned for us to ride.

Some things you may want to do are check your tires. Make sure they are properly inflated and no cracks or tire chip showing. Check when you had your last oil and filter change and make you're your battery is ready for the season. A good practice is to keep a battery tender hooked up to keep the battery fresh. Check the oil levels on the back axel and antifreeze levels as well as your brake fluid level. We have some of the best members to ride with and looking forward for a fun and safe season.

Message from our President!!

We're off to a great start this year.

- The bike show in January was a big success. Thanks to all who volunteered to staff our booth.**
- We've already added 10 new members this year, some of whom we met at the bike show.**
- We got off-schedule with some of our rides due to inclement weather, but we've managed to get all the rides in, so far.**
- We're averaging 14 bikes per ride. Not bad for cold weather riding.**

We have some great rides on the schedule for this year. Check out the schedule and come join the fun. Ride Safe,

**Gary
GGMC President**

RIDE SAFE!!!
